

[What Is Feedback In 3utools](#)

A screenshot of the 3uTools software interface. The top navigation bar is blue and contains the 3uTools logo (a stylized '3' in a circle) and the website URL 'www.3u.com'. To the right of the logo are several icons for different features: iDevice, Apps, Ringtones, Wallpapers, Flash & JB, Toolbox, and Tutorials. A 'Downloads' button with a downward arrow is also present. The main content area is white and features a blue line-art illustration of three mobile devices (two smartphones and one tablet) connected to a desktop monitor via a USB cable. Below the illustration, the text reads: "Still failed to connect with 3uTools after multiple tries?". This is followed by a numbered list of three troubleshooting steps: 1. You are suggested to change a USB port or cable, and reconnect; 2. Try to fix driver and reconnect, click to [Repair Driver](#); 3. If you still cannot connect with iDevice, please [View Tutorials](#). At the bottom of the interface, there is a blue bar with a 'Close iTunes' button on the left, the version number 'V2.25' in the center, and 'Feedback' and 'Check Update' buttons on the right.
